ABOUT REALSAUNA SAUNA SUIT

The REALSAUNA® SAUNA SUIT may look like an ordinary, attractive work out suit, but don't let the looks fool you! Actually, this unique **UNISEX SUIT** is a high quality exercise suit designed with a fashionable heavy cotton outer shell, combined with a unique Specially Designed 100% extra-soft durable Sweat Aid inner lining that feels like soft leather.

The REALSAUNA® SAUNA SUIT has an elastic waistband and draw string. Realsauna Suit is machine washable unlike the cheap inferior plastic sauna suits that tear after one use.

The REALSAUNA® SAUNA SUIT is an effective sweat aid which uses natural body heat generated from any type of low or intensive high-energy physical exercise to increase perspiration during your work out for faster weight loss.

The REALSAUNA® SAUNA SUIT and Sauna Sweat Creme helps tighten the stomach muscles, eliminates the common stomach pouch, love handles, and the appearance of cellulite that often forms from fat build-up. The sweat excretion process through perspiration stimulates the entire body, thus helping to rid the body of excess water weight gain, and evenly melts away unwanted body fat! This weight loss process works just like the expensive "saran wrap" body treatments offered at exclusive health spas.
